

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

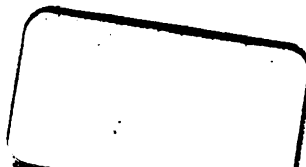

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

COLONIAL BANK OF AUSTRALASIA.

## ACTUARY.

## SECRETARY.

G. E. COWLEY, Esq.

E. L. MONTEFIORE, Esq. J.P.

Fire Risks taken at lowest current rates.

Marine Risks accepted at current rates, and losses made payable either at the Head Office, Melbourne, or at any of the Agencies of the Company in Great Britain, India, or the Colonies, at the option of the Assured.

Life Policies issued on very favourable conditions. No extra charge to members of Volunteer Brigades. Very extended geographical limits allowed. Claims paid within one calendar month after proof of death.

Particular attention is directed to the fact that the funds belonging to the Life Branch are protected by special act of Parliament against any claim arising out of the Fire and Marine Branch; a substantial guarantee is thus afforded to Policy-holders.

# AUSTRALASIAN INSURANCE COMPANY.

*The following are the Conditions endorsed on the Company's Life Policies, and will be found to contain very extended geographical limits, and the utmost liberality consistent with safety.*

## I. Limits of Residence.

Persons whose lives are insured, not being engaged in any Military, Naval, or Maritime occupation, may proceed to and reside in any part of the globe comprised within the following limits, without the payment of any extra premium, except for sea risk (see Condition II.), viz:—1. The whole of Europe without limitation. 2. The whole of North America, situate to the North of the 36th degree, North latitude. 3. The whole of the Colonies of New Zealand and Tasmania without limitation. 4. Such parts of the Colonies of the Cape of Good Hope and Australia as are situated South of the 23rd degree of South latitude. But this insurance shall become void if the person whose life is insured shall go beyond the above limits, unless such extra premium shall have been previously paid to the Company as the Directors shall consider proportionate to the additional risk.

## II. Sea Risk.

A small per centage is charged for sea risk, except in passing in a decked vessel between one part of Australia and another, or between Australia, Tasmania, and New Zealand, or any of them.

## III. Renewal of Policy.

No insurance shall be in force until the day on which the premium shall have been actually paid. The renewal premium shall be due to the Company on the same day in each succeeding year, and if not paid within one calendar month from that day, the insurance shall be out of force.

## IV. Duelling, Suicide, &c.

In the event of persons insuring their own lives, and afterwards dying by their own act, or by the hands of justice, or in consequence of having been engaged in a duel, the policy shall, notwithstanding such death, remain in full force so far as regards the actual amount of the interest of any party to whom the policy shall have been legally assigned for an adequate pecuniary consideration; and where no such assignment shall have been made, the company undertakes to pay the family of the deceased, in lieu of the sum insured, the full sum which would have been given for the surrender of the policy on the day preceding such death.

## V. Proof of Death.

All claims on the Company for sums insured shall be supported by a solemn declaration to be made before a justice of the peace, to prove where and by what cause the death shall have happened, also by certificates of burial, and by such other documents as the Directors may reasonably require. When such proof shall have been satisfactorily made, the amount of the insurance, with all outstanding bonuses thereon, shall be paid WITHIN ONE CALENDAR MONTH following.

## VI. Division of Profits.

At the first division in 1869, and at each subsequent triennial division, a portion of the profits arising from policies issued on the participating scale of premiums, will be apportioned amongst the then existing participating policy-holders, in proportion to the amount of premiums paid during the interval. The bonus thus apportioned will be receivable either by a payment in cash, by an equivalent reduction of the future annual premiums, or by an equivalent augmentation of the sum insured, according to the option of the policy-holder. Such option must, however, be stated at the time of effecting the insurance, or otherwise the bonus can only be applied in augmentation of the sum insured.

## VII. Military Clause.

Persons employed in a volunteer, naval, or military capacity, are insured at the same rate of premium as civilians, during such time only as their services are confined within the limits of the colony in which they may reside at the time of effecting the insurance; but this policy will become void if the person whose life is insured should enter the regular army or navy, or should engage in active foreign service, without the previous payment of such extra premium as the Directors may require.

*Any further information, with forms of Proposal, &c., will be furnished on application at Head Office, or by any of the Company's Agents. Written applications to be forwarded to*

**G. E. COWLEY, Actuary.**

1937

# PREFACE.

---

In presenting to the Public the Official Post-office Directory for 1869, the publisher begs to thank them for the support bestowed upon the work on its first appearance. As may be surmised, the changes that take place during the year are so few in comparison to the number of names comprised in the 680 post towns of the colony, that an entirely new edition of the Directory every year would be uncalled for, and at the same time entail a heavy loss on the publisher.

During the past year, however, nearly eighty new post-offices have been established; and it is at the suggestion of many former purchasers, who have found the benefit of a complete Victorian Directory, that the volume of 1868 has been corrected, and the additional post-offices added, in order to bring the present edition up to date, and under that arrangement enable the publisher to offer the Directory for 1869 at the reduced price of One Guinea.
